great book. Von Ein Kunde This book contains inventions from all around the world from microchips to fire. This is a really good book if you are going to do research on inventions.

Kurzbeschreibung The perfect desk reference for trivia fans and anyone interested in the history of technology. Bill Yenne is extremely thorough and explains clearly the historical context as well as the inventions' specific relevance in their time of creation. Both relevant and intriguing, this book access information in a way that both historical buffs and a mere curious individual can enjoy.
