everything you want in a bookVon Anshathis book was highly entertaining, with a likable heroine. I really liked Amy and the way she sees the world. It's fast paced and funny - the perfect book to spend a rainy day with.

Kurzbeschreibung In 1902, in a dark room on the fifth floor of Carnegie Hall, thirteen people came together to continue a tradition that had been set in stone thousands of years before. In 2012, Leah Tallent is Head of Research at the New York Public Library. Stoic and stable, brilliant and cynical, she has forever enjoyed her existence among the book stacks. But even with her unparalleled intellect, there was no way to know that on the historic steps between America's famous lions, she would become involved with a crazy man on a fanatical quest. Gareth Lowery has spent his life searching for the ultimate artifact that he is certain exists. His life's pursuit has been to retrieve twelve keys hidden by men whose job it was to protect the single biggest secret ever kept. To find the keys he must enlist the help of an unwilling guide who, unfortunately, knows much more than he bargained for. From the first page to the last word, this fantastic duo become immersed in a whirlwind treasure hunt with historical and passionate repercussions. From the strange and eerie Winchester House to the blustery darkness of Loch Ness, Gareth and Leah will quickly learn that the theory of duality is correct: For every bad there is a good and, for Heaven, there most assuredly exists...Hell. This is a new release of a previously published edition.
