**Von Oelsner, G. Hermann (Gustaf Hermann) : A Handbook of Weaves (HardPress Classics)** before purchasing it in order to gage whether or not it would be worth my time, and all praised A Handbook of Weaves (HardPress Classics):

A piece of historyVon Jamie V.Artisans are collectors by nature, hungry for atifacts and information that vergex on lost. This book is a compilation of what was already classic in 1915, as well as what was fashionable. For ideas and orientation,

a treasure. As this is an original re-print, much of the terminology is old and no longer in use, making it a bit slow at first. Such are historical documents. Part of the artform. I would put it on my MUST list for the halfway serious weaver. 2 von 2 Kunden fanden die folgende Rezension hilfreich. Handbook of Weaves Von Ein Kunde A must have book for anyone who wishes to extend his basic knowledge of weaves.

Kurzbeschreibung Unlike some other reproductions of classic texts (1) We have not used OCR (Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.
