**Von Florian Rommel : Active Directory Disaster Recovery** before purchasing it in order to gage whether or not it would be worth my time, and all praised Active Directory Disaster Recovery:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Seid vorbereitet!Von ARAusRHier wird ein bunter Mix aus Organisation und Technik rund um die Verfgbarkeit des Active Directory vorgestellt. Dabei kommt die Prvention nicht zu kurz. Egal, ob man BCM erst aufbauen will, seine Prozesse verbessern will oder nur einen Review durchfhrt, das Buch liefert einen kompakten und kompletten Abriss zum Thema. Einziges Manko: Obwohl im Jahr 2008 verffentlicht, fehlen die aktuellen AD Technologien.

KurzbeschreibungThe book is a combined planning/response-focused book and can be read end to end but also is

designed so that the second half can be read standalone, should disaster have struck already. This book is targeted at network security professionals who find themselves charged with creating an Active Directory Disaster Recovery plan or who want to quickly recover once disaster has struck. This book expects you to be familiar with the basics of Active Directory and Windows Servers.

**ber den Autor und weitere Mitwirkende**Florian was born and raised in his native Germany until the age of 15 when he moved with this family to Central America and then the US. He has worked in the IT industry for more than 14 years and has gained a wealth of experience in many different IT environments. He also has a personal interest in Information Security. His certifications include CISSP, SANS GIAC, MCSE, MCSA, MCDBA, and several others. Together with his extensive experience, he is a qualified expert in the area of Information Security. After writing several Disaster Recovery guides for Active Directory environments he now brings you this unique publication, which he hopes will become a key title in the collection of many Windows Server Administrators and specialists. Florian lives with his wife and daughter in Finland where he also works as an IT Manager in a global company.
