**Von Adobe Creative Team : Adobe Premiere Elements 8 Classroom in a Book** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Adobe Premiere Elements 8 Classroom in a Book:

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. Adobe Premiere Elements 8, Classroom in a Book Von J. Vengassary I didn't know much about Premiere Elements. The book is helpful to understand the work spaces. Now I have started to work with Elements. I find the book very supporting and creating interest in me to carry on with Premiere Elements.

Kurzbeschreibung Adobe Premiere Elements 8 Classroom in a Book is the most thorough and comprehensive way for you to master all the new features in Adobe's consumer-targeted video editing software. Each chapter in this step-by-step, project-based guide contains a project that builds on your growing knowledge of the program, while end-of-

chapter review questions reinforce each lesson. You will learn the basics of editing your videos with Premiere Elements and will learn how best to use the program's many new features. In this new version you can fix shaky footage and color and lighting problems with SmartFix, automatically remove unwanted footage with Smart Trim, automatically balance audio with SmartMix, add graphics that follow the action of your footage, and much more. All of Peachpit's eBooks contain the same content as the print edition. You will find a link in the last few pages of your eBook that directs you to the media files. Helpful tips: If you are able to search the book, search for "Where are the lesson files?" Go to the very last page of the book and scroll backwards. You will need a web-enabled device or computer in order to access the media files that accompany this ebook. Entering the URL supplied into a computer with web access will allow you to get to the files. Depending on your device, it is possible that your display settings will cut off part of the URL. To make sure this is not the case, try reducing your font size and turning your device to a landscape view. This should cause the full URL to appear.
