**Von Peter Malanczuk : Akehurst's Modern Introduction to International Law** before purchasing it in order to gage whether or not it would be worth my time, and all praised Akehurst's Modern Introduction to International Law:

KundenrezensionenHilfreichste Kundenrezensionen4 von 4 Kunden fanden die folgende Rezension hilfreich. A new, valuable introduction to Int'L LawVon Ein KundeThe 7th edition of this classic among student textbooks builds upon the clarity and stile Michael Akehurst was famous for, and gives an up to date introduction to International Law. The author, Peter Malanczuk, Professor of International Law at the University of Amsterdam, included systematic references which will enable the reader to begin a journey into the advanced subjects of the Law - if he/she so wishes. Malanczuku's perspective is broad and serves the needs both of students in International Law and in International Relations.2 von 3 Kunden fanden die folgende Rezension hilfreich. Interesting and informativeVon AsadAs a student studying Political Economy, and hoping to pursue International Law at the graduate level - I find this book to be informative and an enjoyable read. Not only has the author taken steps to make sure the content is interesting and detailed, but the material is also unusually absorbing and has me "hooked".0 von 5 Kunden fanden die folgende Rezension hilfreich. Not an introduction!Von Boris KeylwerthThis book claims to be an introduction to Modern International Law, but I cannot recommend it for this purpose. The main problem of the book is not the content - it is the structure. In other words, there is no clear structure you expect in an itroductionary text. The author just talks about

everything and nothing, mainly stating that there are no clear solutions to the issue. He mixes up theory with examples and own thoughts. The problem therefore is, that you have to read all of a chapter in order not to miss information. Instead, it would be better to clearly state the issue, explain it in the next paragraph and finally offer some examples. Summing up my thoughts, this book cannot be recommended as an introductory reading.

Kurzbeschreibung First published in 2002. Routledge is an imprint of Taylor Francis, an informa company. Pressestimmen "Professor Malanczuk has written a new edition of Michael Akehurst's textbook which maintains its high traditions of clarity, precision and coherence. The new edition, more widely-detailed and widely-referenced, will appeal to a wider audience than its predecessor, whilst still satisfying the needs of those seeking an accessible introduction to international law, whether lawyers or not." -Colin Warbrick, University of Durham
