Interessantes Buch Von RASQUI Yves Ein sehr gutes Buch, bei einer Zeit die wir hoffentlich nicht mehr erleben müssen. Für Nachforschungen sehr gut geeignet. Ok.

Kurzbeschreibung At last, here is a book that tells the full story of the turning point in World War II's Battle of the Bulge—the story of five crucial days in which small groups of American soldiers, some outnumbered ten to one, slowed the German advance and allowed the Belgian town of Bastogne to be reinforced. *Alamo in the Ardennes* provides a compelling, day-by-day account of this pivotal moment in America's greatest war.

Pressestimmen A comprehensive and vivid account of the heroic defense of Bastogne, the linchpin in the Battle of the Bulge. With a scholar's precision and a writer's keen eye for the telling detail, John C. McManus has taken a great old story and made it new again.

Rick Atkinson, Pulitzer Prize-Winning Author of *An Army at Dawn* McManus's absorbing and forthright narrative will hopefully dispel several myths, namely that Bastogne was the decisive engagement of the Battle of the Bulge, and give long-overdue credit to the many brave Americans, some of them still alive today, who made victory possible in America's greatest ever battle. You can't ask for more. Bravo!

Alex Kershaw, New York Times Bestselling Author of *The Longest Winter* and *Avenue of Spies* I have read hundreds of books about men in battle but seldom have I seen one that comes close to the intensity that John McManus achieves in *Alamo in the Ardennes*. To an unparalleled degree, his amazing research has enabled him to get inside the minds and hearts of dozens of soldiers, from generals to privates. This is a book that will become one of the classics of the literature of World War II combat.

Thomas Fleming, Author of *The New Dealers' War* This definitive and eminently readable history is destined to be a classic among Bulge histories.

Patrick K. O'Donnell, Author of *Washington's Immortals* Rezension "McManus's absorbing and forthright narrative will hopefully dispel several myths, namely that Bastogne was the decisive engagement of the Battle of the Bulge, and give long-overdue credit to the many brave Americans, some of them still alive today, who made victory possible in America's greatest ever battle. You can't ask for more. Bravo!"

--Alex Kershaw, author of *The Longest Winter: The Battle of the Bulge and the Epic Story of WWII's Most Decorated Platoon* "John McManus has deftly woven a wide range of previously untapped sources into a dramatic and finely detailed account of events that set the stage for the successful defense of Bastogne during the Ardennes Counteroffensive. In doing so, McManus pays a long overdue and heartfelt tribute to the brave men of the 110th Infantry Regiment, Combat Command R, 9th Armored Division, and CCB, 10th Armored Division without detracting from the epic stand of the "Screaming Eagles" of the 101st Airborne Division."

--Lt. Col. (Ret.) Mark J. Reardon, U.S. Army Historian and Author of *Victory at Mortain* "A comprehensive and vivid account of the heroic defense of Bastogne, the linchpin in the Battle of the Bulge. With a scholar's precision and a writer's keen eye for the telling detail, John C. McManus has taken a great old story and made it new again."

--Rick Atkinson, author of the Pulitzer Prize-winning *An Army at Dawn* and the bestselling *In the Company of Soldiers*. "I have read hundreds of books about men in battle but seldom have I seen one that comes close to the intensity that John McManus achieves in *Alamo in the Ardennes*. To an unparalleled degree, his amazing research has enabled him to get inside the minds and hearts of dozens of soldiers, from generals to privates. This is a book that will become one of the classics of the literature of World War II combat."

--Thomas Fleming author of *The New Dealers' War: FDR and the War Within World War II* "John McManus shines a light on the lesser-known battles that made the historic defense of Bastogne possible. His excellent research puts the reader on the icy battlefields of Belgium where threadbare American retrograde fighting frustrated Hitler's last offensive in the west."

--Kevin M. Hymel, author of *Patton's Photographs* "Alamo of the Ardennes" reveals the largely unknown story of how small bands of American soldiers turned the tide during the early stages of Battle of the Bulge. Through the words of the men, McManus weaves a brilliant story of courage and sacrifice. This definitive and eminently readable history is destined to be a classic among Bulge histories."

--Patrick K. O'Donnell, author of *We Were One: Shoulder to Shoulder with the Marines Who Took Fallujah and Beyond Valor: World War II's Ranger and Airborne Reveal the Heart of Combat*.
