KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. Schnere Einstieg in AWSVon Michael BullaDas Buch bietet einen guten allumfassenden Einblick in das Thema Webserverices. Es wird angesprochen wozu Cloud Computing überhaupt gut ist. Es werden die ersten Schritte aufgezeigt, um mit AWS durchstarten zu knnen. Es werden alle Dienst (Stand Ende 2010) erklrt. Insofern ein super Buch, fr alle, die noch keine Schnittpunkte hatten und gucken wollen, was AWS überhaupt ist.Ich hatte mich vor dem Kauf des Buches schon intensiv mit der AWS-Homepage auseinander gesetzt. Daher gab es fr mich nicht viel Neues. Ein weiterer Kritikpunkt ist, dass der Autor es mit dem Beispielcode zu gut macht. Da wird ber Seiten hinweg PHP-

Code abgedruckt, der imho keinen Mehrwert bietet. Ohne diesen knnte das Buch bestimmt 25% dnnner sein.
