Highly recommended."-J.W. Walt, Simpson College, Choice, May 2002 "In this highly original book, Hoyland gives us a rare glimpse into the society and culture of Arabia before the advent of Islam in the seventh century. Hoyland challenges the myth of pre-Islamic Arabia as culturally barren and demonstrates the social vitality of everyday life in the area. The narrative is enhanced by numerous maps, figures and plates. Highly recommended for academic and large public libraries."-Library Journal ..."the structure of the volume makes it accessible to a wide audience, and it contains much historical information that is unavailable in any other single source. It is well-illustrated, with over fifty photographs, maps and drawings. One cannot help but comment that it is a timely and important book, given the renewed interest in Arabia in the post-September 11th world. Scholars of the Middle East generally and students of Arabic prehistory in particular will appreciate having such an accessible source-book at hand."-Peter Magee, University of Sydney "Choice Outstanding Academic Title 2003."-Choice "In this highly original book, Hoyland gives us a rare glimpse into the society and culture of Arabia before the advent of Islam in the seventh century.
