Nick Cutter USN, the answer to international terrorism!Von Ein KundeNewspaper Reviews"A neatly tied-together little thriller...a nicely woven novel that pounds along like a locomotive."--Harry Crumpacker, The Tampa Tribune--"Nick

Cutter is a macho Navy SEAL, with the power to kill like a Rambo with gills...an old-fashioned action yarn straight out of the Mickey Spillane school of tough-guy fiction."--Mark Hinson, The Tallahassee Democrat-"Cruts shows the kind of promise of the early Clancy. This is an author, and a continuing saga, worth following."--Scott Ceier, The Key West Citizen--"Those who like non-stop action will love this book...frothing, roiling ocean of feints and parries - with knives, guns, and wits."--Peggy May, The Northwest Florida Daily News--"There's a new hero on the American literary scene, and his name is Cutter, Nick Cutter...one part Lloyd Bridges in 'Sea Hunt,' one part Harrison Ford in 'Clear and Present Danger,' a pinch of James Garner in 'The Rockford Files,' and a dash of author Randy Cruts."--Mark Bradley, The Pensacola News Journal--0 von 0 Kunden fanden die folgende Rezension hilfreich. Not a professional review. Von mcgoggin@yahoo.com I'm just an average guy (Army Cooking School Graduate) who likes to read in his spare time. I found "Dive into Terror" a diverting romp through the hellish nightmare of terrorist/anti-terrorist tactics. I haven't yet had occasion to utilize any of its several lessons, but my personal motto is "Be Prepared." I have heard mention (but cannot verify) that this book has been standard reading for strategy toadies at high levels since its discovery. I suppose it has an interest value for that reason alone, but privately suspect it of having additional intrinsic literary merits which I, an average guy, wouldn't dare to approach. I may not know art, but I know what kind of steely determined violence I like. Thank you, A disinterested Army cook who likes to read.0 von 0 Kunden fanden die folgende Rezension hilfreich. Good insight into the economics mechanics of terrorism. Von Ein Kunde I got a copy of "Dive into Terror" from a friend a couple of years ago and enjoyed it. Lots of action, outrage, and poetic justice. After the embassy bombings and the coverage of Osama Bin Ladin, I pulled it out and read it again. Cruts either has a crystal ball or he's taking work home from the NSA. The first time I read it I thought the plot was a little far fetched. Upon reflection, and in the light of recent events it seems frighteningly believable - except for the part about the US responding appropriately. This book should be required reading for the staffs of the secretaries of state and defense.

Kurzbeschreibung "Dive into Terror" "Nick Cutter, the Terrorist's Terrorist" Novel by Randy Cruts LCDR, USNR (ret) This prophetic story outlined events that have unfolded and are still unfolding in today's news concerning the war on global terrorism. Cruts was writing and predicting events dealing with the international players of terrorism long before the news media had decided whether to spell Osama bin Laden's name with an O or a U. His second novel, Controlled Insanity, warned about the magnitude of attacks America can expect in its future, years before the tragic day of 9-11. Quotes from Newspaper s: A neatly tied-together little thriller ... a nicely woven novel that pounds along like a locomotive.-Harry Crumpacker, The Tampa Tribune Nick Cutter is a macho Navy SEAL with the power to kill like a Rambo with gills ... an old-fashioned action yarn straight out of the Mickey Spillane school of tough-guy fiction.-Mark Hinson, The Tallahassee Democrat Cruts shows the kind of promise of the early Clancy. This is an author, and a continuing saga, worth following.-Scott Ceier, The Key West Citizen Those who like non-stop action will love this book ... frothing, roiling ocean of feints and parries -with knives, guns, and wits.-Peggy May, Northwest Florida Daily News There's a new hero on the American literary scene, and his name is Cutter, Nick Cutter ... one part Lloyd Bridges in Sea Hunt, one part Harrison Ford in Clear and Present Danger, a pinch of James Garner in The Rockford Files, and a dash of author Randy Cruts.-Mark Bradley, Pensacola News Journal Synopsis THE THREAT: The Islamic ibn Allah (ISA), a newly formed terrorist organization is in the process of uniting all terrorist factions worldwide. Global by nature, the ISA's area of operation is currently limited to Europe but plans are in the works to wreak terror internationally. Yasser Arafat's Palestine Liberation Organization, Black September, The Islamic-jihad, Abu Nidal's Black June are just some of the more radical groups but the ISA is the most hideous of them all. This new threat has split from Nidal's Black June and other heretic terrorist groups. What makes it scary? They are organized and grow by the hour. THE ANSWER: Nick Cutter, a lieutenant in the United States Navy with the warfare specialty of SEAL, is recruited by an elite counter-terrorist team, the Terrorist Neutralization/Hostage Extraction Squad (TNHES or Tennis Team). His new mission, eliminate the most important cell of the ISA. This squad is more covert than SEAL Team Six or Delta force; no records of their being exist. No paper or financial trails can lead anyone to the Tennis Team keeping their stealth capabilities intact. Lieutenant Cutter signs on under the conditions that the US Government will maintain complete deniability. REASON: The Tennis Team abandons all civilized rules of engagement. Cutter and his men MEET TERRORISTS ON THEIR OWN TERMS, NEUTRALIZE ALL ISA MEMBERS ON THE SCENE, AND TAKE NO PRISONERS UNLESS OTHERWISE DIRECTED.
