Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. get something back from Facebook Von mko Facebook like portals are based on community ' if there were no people willing to devote their time for it, Facebook wouldn't exist. Question rises ' am I able to get something back from Facebook? Vander Veer claims that it's possible. By describing various features of Facebook explains how to utilize

them in order to achieve certain goals. I would argue whether title of the book should state 'Doing Business' thou. In my opinion this is just a little trick to get peoples' attention. I am not Facebook fan at all, that's why I am not aware of it's features. I was looking for a book that could shade some light on this topic and was condense at the same time. In this term 'Doing Business ' is just fine. After reading section two you can get the feeling of what Facebook is about. If you need brief overlook of most of Facebook features ' that's fine. When it comes doing business (section one), I don't fully agree with author. I don't think that creating Facebook resume is a good idea. I think standing out of the crowd would be better idea. Facebook page with links to your personal web site ' fine. Moving your resume into Facebook ' nope, thanks. In general, I have found what I was looking for. Would I recommend this book? If you don't know Facebook yet, I think the price of this book makes it a good deal to get it and see what's behind one of the most recognized logos.
