Von Bellamy, Edward : Dr. Heidenhoff's Process before purchasing it in order to gage whether or not it would be worth my time, and all praised Dr. Heidenhoff's Process:

Kurzbeschreibung Unlike some other reproductions of classic texts (1) We have not used OCR (Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.

Synopsis A novel about a doctor who develops a method of eradicating painful memories from people's brains so that they can feel good about life again. Edward Bellamy (1850-1898) was an American author and socialist, most famous for his utopian novel set in the year 2000, *Looking Backward from 2000 to 1887*, published in 1888. His books include *Dr. Heidenhoff's Process* (1880), *Miss Ludington's Sister* (1884), *Equality* (1897) and *The Duke of Stockbridge: A Romance of Shays' Rebellion* (1900). His feeling of injustice in the economic system led him to write *Looking Backward from 2000 to 1887* and its sequel, *Equality*. In *Looking Backward from 2000 to 1887* an upper class man from 1887 awakens in 2000 from a hypnotic trance to find himself in a socialist utopia. It influenced a large number of intellectuals, and appears by title in many of the major Marxist writings of the day. His novel also inspired several utopian communities. A short story *The Parable of the Water-Tank* from the book *Equality*, published in 1897, was popular with a number of early American socialists. Less successful than its prequel, *Equality* continues the story of Julian West as he adjusts to life in the future.
