The many parallels between the Holocaust and the industrialization of slaughter ...Von falkj.info" In his thoughts, Herman spoke a eulogy for the mouse who had shared a portion of her life with him and who, because of him, had left this earth. 'What do they know -- all these scholars, all these philosophers, all the leaders of the world -- about such as you? They have convinced themselves that man, the worst transgressor of all species, is the crown of creation. All other creatures were created merely to provide him with food, pelts, to be tormented, exterminated. In relation to them, all people are Nazis; for the animals it is an eternal Treblinka.'" This famous quote from the Jewish literature Nobel laureate Isaac Bashevis Singer, to whom this book is dedicated, led to controversial discussions. Can the Third Reich Holocaust be compared with what mankind is doing to the animals? Taking the phrase "they were treated like animals", we confirm that the way we treat animals often is a brutal crime. The book shows the historical development of ideologies and technologies of mass-killing - of both animals and humans. It also shows that tolerated violence against animals can easily lead to violence against humans. Table of Contents:= A Fundamental Debacle =1. KurzbeschreibungETERNAL TREBLINKA is about the common roots of animal and human oppression and similarities between how the Nazis treated their victims and how modern society treats animals. The book's title comes from the Yiddish writer and Nobel Laureate Isaac Bashevis Singer: "In relation to them, all people are Nazis; for animals it is an eternal Treblinka." The book describes the emergence of human beings as the master species and their domination of the rest of the inhabitants of the earth and the industrialization of slaughter (of both animals and humans) during modern times--with America giving the world the slaughterhouse and Nazi Germany giving it the gas chamber. The book concludes with profiles of Holocaust-connected Jewish and German animal advocates, as well as a chapter on the compassionate vision of Isaac Bashevis Singer. From Publishers Weekly Isaac Bashevis Singer first suggested that "for the animals, it is an eternal Treblinka." Charles Patterson (Anti-Semitism: The Road to the Holocaust and Beyond) expands on that risky analogy in his latest book, *Eternal Treblinka: Our Treatment of Animals and the Holocaust*. Patterson hypothesizes a risky causal relationship, too, when he writes, "since violence begets violence, the enslavement of animals injected a higher level of domination and coercion into human history by creating oppressive hierarchical societies and unleashing large-scale warfare never seen before." Was human "enslavement" of animals the first step on the road to the Holocaust? Patterson doesn't say as much, but it's clear that he feels our inhumanity to the nonhuman is one of our greatest evils. Copyright 2001 Cahners Business Information, Inc.
