KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Sehr spannend und mitreisendVon LiselVon Anfang an ein sehr spannendes Buch welches ich kaum zur Seite legen konnte. Habe es in wenigen Tagen komplett durchgelesen und mir danach noch Chris Hunters Buch "Eight Lifes Down"

welches von seinem Einsatz im Irak handelt gekauft. Da ich selbst aus diesem Metier komme, fand ich es sehr interessant die Erfahrungen von Chris Hunter kennenzulernen. Ich kann seine Bücher nur uneingeschränkt weiterempfehlen!

Kurzbeschreibung BOSNIA...NORTHERN IRELAND...IRAQ...AFGHANISTAN...For the past twenty years, some of the most dangerous places on earth. And for Major Chris Hunter, just some of the places where he has defused bombs in his ceaseless battle against terrorism and the bombmakers. This is the story of a teenager with no hopes who joined the army at sixteen and went on to become one of the most successful counter-terrorism operators in the world. This is the story of survival when all the odds are stacked against you, when every second feels like a lifetime, when the sound of your heart beating is as deafening as a ticking bomb. This is what it's like, day in day out, to take your life and the lives of others in your own hands, and make a difference. And this is what it costs to live that life...
Pressestimmen "A beautifully descriptive fly-on-the-wall look at the daily work of the EOD men... For those with a fascination with international terrorism and the deadly IEDs that have become its weapon of choice, this book will offer a unique insight." -Independent "Gets underneath the skin of the terrorists and, like the bombs he made safe, gets to the heart of what makes them tick."
