Feardom: How Politicians Exploit Your Emotions and What You Can Do to Stop Them (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. An important work that discusses human libertyVon Helpful AdviceFeardom written by Connor Boyack in easy to understand way speaks about the loss of liberty issue known from the turbulent human history but equally present these days perhaps somewhat better and more cunningly hidden than previously.But though with his book Boyack explains how and when US citizens have lost freedom, the author also dont forget advices he is giving how to get it back.I plan to update this review in following 24 hours though already now I can recommended Connor Boyacks Freedom as important work that discusses human liberty the most precious thing in our life, though often ignored until we lose it, but then it is usually too lateI was given a copy of this book by the author for the purpose of unbiased review, while all the presented information is based on my impressions.

KurzbeschreibungWhat do history's most notorious despots have in common with many of the flag-waving, patriotic politicians of our day? Both groups rise to power through the exploitation of fear. Sometimes the fear derives from a pre-existing threat. At other times, crises are created or intensified to invoke a sense of panic and anxiety where none previously existed.This pattern is as predictable as it is destructive. The end result is the same: a loss of liberty. Policies that are costly, oppressive, and harmful are supported by people who abandon any interest in freedom or personal responsibility in hopes of feeling safe.Manufactured fear, with its negative impact on liberty, is a societal plague. There have been widespread casualties. We need an antidote. Feardom offers its readers a much-needed immunization.KurzbeschreibungWhat do history's most notorious despots have in common with many of the flag-waving, patriotic politicians of our day?
