Most informativeVon F.CarreI have read most if not all books about war in the air during WW II, in french, in english and in german (some one hundred). I consider Robert F. Dorr's "Fighting Hitler's Jets" as one of the best. It's surely not a candidate for the Nobel prize of litterature but it is very lively written and pleasant to read despite some repetitions. But what makes it almost unique is the quality of the idetails it gives about the most exotic Luftwaffe and Allied airplanes like ie Me 262, Me 163, Bachem Natter, He 162, He 260, P-39 M Airacobra or P-80A Shooting Star. Some of them has never been read elsewhere. Issued in 2013, this book contains the most recent and advancedinformation. It is a "must read" for all interested in air combat during WW II.

KurzbeschreibungFighting Hitler's Jets brings together in a single, character-driven narrative two groups of men at war: on one side, American fighter pilots and others who battled the secret wonder weapons with which Adolf Hitler hoped to turn the tide; on the other, the German scientists, engineers, and pilots who created and used these machines of war on the cutting edge of technology. Written by Robert F. Dorr, renowned author of Zenith Press titles Hell Hawks!, Mission to Berlin, and Mission to Tokyo, the story begins with a display of high-tech secret weapons arranged for Hitler at a time when Germany still had prospects of winning the war. It concludes with Berlin in rubble and the Allies seeking German technology in order to jumpstart their own jet-powered aviation programs. Along the way, Dorr expertly describes the battles in the sky over the Third Reich that made it possible for the Allies to mount the D-Day invasion and advance toward Berlin. Finally, the book addresses both facts and speculation about German weaponry and leaders, including conspiracy theorists view that Hitler escaped in a secret aircraft at the wars end. Where history and controversy collide with riveting narrative, Fighting Hitlers Jets furthers a repertoire that comprises some of the United States most exceptional military writing.
