This Book should become a Movie!!!Von Ein KundeA friend of mine turned me on to Major "Doc" Norton's books about the Marine Corps, and I must agree, this Major can tell a great story! I served in the Marine Corps for 22 years and had just one tour in Vietnam. No one else can "bring in home" like this guy can. You feel as though you are out on patrol with Doc and his recon team in 3rd Force Recon Co. The best part is that he writes a sequel about his time in 1st Force Recon Company. If Spielberg had half a brain he'd make Norton's books come alive on screen. It would be the Vietnam version of Saving Private Ryan. If readers are interesetd in "credibility" than here is a story of heroic young men in combat. Truth is better than fiction and this book proves it. Any Marines I know would be proud to have guys like Norton and his teammates, Bishop, Silva, Keaveney and Furhman, in their team. Where do guys like these come from? The are the legends of the Corps. A GREAT Book! Go out a buy it. That's an order!0 von 0 Kunden fanden die folgende Rezension hilfreich. Honest, compassionate, and stirring, without vulgarity!Von Ein KundeI first read this book years ago. I was given an autographed copy, by a friend who served with Major Norton. I have had the pleasure and honor of meeting and working with "Doc" Norton, Paul "Old Man" Keaveney, and Alex Lee. I like the book because of its honesty and sincerity in the writing, and the story, showing courage, compassion, honor, and love for a fellow U. S. Marine. I am honored to have met these 3 true American Hero's and call them "FRIEND".0 von 0 Kunden fanden die folgende Rezension hilfreich. Force Recon Diary 1969-1970Von ToddI've read both '69 and '70. This is by far one of the best books about real experiences in Vietnam that I have read. I was on the edge of my seat the whole way through. At one point I felt as if I was the one hiding in the bush just 10' feet from the NVA as they passed by! A real heart pounder!
