**Von Geraint Roberts : Forest Brothers (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Forest Brothers (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Interesting book about the WWII in EstoniaVon Ich bei For all who are interested in Estonia and the history of this small country this book is entertaining and gives some ideas about the time of the independence after WW1 and late WW2.During several chapters I thought about putting it aside (especially in the beginning) as there were some lengths in the story and I missed the indication which year we are in.But all in all a nice little book.

KurzbeschreibungA World War II drama set in a land the UK forgotDecember 1918: The royal navy sends a squadron of ships to the fledgling Estonian nation to aid their fight for independence. When the squadron is due to depart, a young navy officer jumps ship, sacrificing his career for the love of a woman - but the navy reclaims its own. Huw Williams is dragged back to his homeland in disgrace. Years later, the world is at war again. Huw is scratching a living on the docks when the past comes to call. He is flung into covert operations in a land caught between two armies, and a people living under threat of instant death or deportation to oblivion in Siberia. Huw soon finds out that killers are on his track.He joins the Forest Brothers, the partisans living secretly amongst the silver birches of Estonia. There, ghosts of his past life emerge. This is not the return to romantic dreams he had imagined. Nevertheless, an old flame rekindles, and the once embittered Huw rediscovers his desire to help save the country and the people he loves - but how can he do either, forced to live as a fugitive in the forest?
